Areas of Greatest Need:

This Action Plan is for the CDBG Neighborhood Stabilization Program Grant.

INTRODUCTION On July 30, 2008, Congress passed the Housing and Economic Recovery Act that appropriated \$3.92 billion of CDBG funds nationwide for emergency assistance for foreclosed or abandoned properties. On September 29, 2008, this \$3.92 billion was allocated to local and state jurisdictions by the U.S. Department of Housing and Urban Development (HUD), establishing the Neighborhood Stabilization Program (NSP). The County of San Diego's CDBG jurisdiction was allocated \$5,144,152 in grant funds. The County's jurisdiction includes the geographically large unincorporated area and the participating cities of Coronado, Del Mar, Imperial Beach, Lemon Grove, Poway and Solana Beach. These grant funds are intended for the acquisition of foreclosed or abandoned properties that could be sources of blight within community. The County of San Diego's Department of Housing and Community Development (HCD) will administer the County's allocation of these funds. The strategy developed by the County of San Diego for the use of these funds will: 1. Create homebuyer opportunities for income eligible households to purchase foreclosed or abandoned homes; 2. Provide funds for the rehabilitation of foreclosed or abandoned homes purchased through this program with an emphasis on improvements resulting in increased energy efficiency and conservation of natural resources; 3. Provide funds to non-profit organizations and/or housing developers to purchase foreclosed or abandoned properties for rental units for income eligible households and/or special needs households. Administration for the NSP program for the target areas of unincorporated San Diego County and the cities of Coronado, Solana Beach, Del Mar, Poway, Imperial Beach, and Lemon Grove.

Distribution and and Uses of Funds:

A. AREAS OF GREATEST NEED To determine the geographic areas of greatest NSP need, data provided by HUD and local data from DataQuick Information Systems was utilized.

B. DISTRIBUTION AND USES OF FUNDS Target areas with the greatest percentage of home foreclosures by community were identified by evaluating current local data from DataQuick Information Systems. Targeted communities include: Campo, Spring Valley, Jacumba, Lemon Grove, Boulevard, Pine Valley, Ranchita, Guatay, Dulzura, Bonsall, Valley Center, Imperial Beach, Lakeside, Palomar Mountain, Pauma Valley, Ramona, Fallbrook, Lincoln Acres, Bonita, Potrero, and Alpine.

The NSP funds will be used to provide assistance to low, moderate, and middle income (LMMI) homebuyers to purchase and rehabilitate foreclosed or abandoned properties. At least 25% of the NSP grant will be used to benefit low income households in the target areas.

Rental Acquisition, Development, and Rehabilitation Program: Housing acquired, developed, or rehabilitated with NSP funds for the purpose of providing permanent housing for LMMI individuals or families must be maintained as affordable housing for a period of 15 years and, in the case of rental properties, restrictive covenants will be placed on the title of the properties, which will hold a superior position to all liens and encumbrances.

The County of San Diego will target rehabilitation funds to improvements that will improve conservation and energy savings. All rehabilitation will be performed under the supervision of a licensed contractor in compliance with all local code requirements.

C. LOW INCOME TARGETING The amount of the NSP funds targeted to low-income households will be no less than \$1,286,038, which is 25% of the total NSP allocation.

D. ACQUISITIONS & RELOCATION The County of San Diego does not intend to demolish or convert low- and moderate income dwelling units with NSP funds.
